

Attendance Appeals Procedure

1. Purpose

Students who believe an absence has been incorrectly recorded as unexcused, or who believe attendance-related grade penalties were applied in error, may file a formal attendance appeal using this procedure.

2. Grounds for Appeal

- Absence was excused but incorrectly recorded as unexcused in the LMS
- Documentation was submitted on time but not acknowledged by the instructor
- Grade penalty applied despite absence being within the permitted threshold
- Procedural error by instructor (e.g., failed to apply university policy correctly)

3. Filing a Formal Appeal

The student must submit an Attendance Appeal Form (Form AA-09) to the department's administrative coordinator within 5 business days of receiving written notice of the attendance-related action. The form must include a written narrative, all relevant documentation, and LMS screenshots if applicable.

A copy of the appeal is automatically forwarded to the instructor and the Department Chair.

4. Review Process and Timeline

The Department Chair reviews all submitted materials and issues a written determination within 10 business days. If the appeal is granted, the instructor is directed to correct the attendance record and recalculate the affected grade. If denied, the student may escalate to the Dean of Academic Affairs within 5 business days.
