

Behavioral Intervention Policy

1. Purpose

This policy establishes the Behavioral Intervention Team (BIT) and defines its role in supporting students who demonstrate concerning behaviors that may pose a risk to themselves or others, without necessarily rising to the level of a formal Code of Conduct violation.

2. BIT Composition and Responsibilities

The BIT is a multidisciplinary team comprising the Dean of Students (chair), the Director of Counseling Services, the Director of Campus Safety, and at least two faculty or staff representatives. The BIT meets weekly to review referrals and coordinate interventions.

3. Referral Process

Any member of the university community — student, faculty, or staff — may submit a referral to the BIT through the online CARE Report form. Referrals may concern behaviors including: concerning social media posts, expressions of hopelessness, sudden changes in behavior, threats, or self-isolation.

Referrals are not disciplinary actions. They are supportive in nature and aim to connect the student with appropriate resources.
