Revision: **1.0**

Campus Safety Regulations

1. Overview

These regulations establish safety standards for all individuals on the Westbrook University campus to ensure a safe and secure environment for study, work, and community life.

2. Weapons Policy

No weapons of any kind — including firearms, knives with blades longer than 3 inches, explosives, or any device intended to cause bodily harm — are permitted on university property. This applies regardless of whether the individual holds a concealed carry permit. Violations are grounds for immediate removal from campus and referral to law enforcement.

3. Substance Policies

The use, possession, or distribution of controlled substances in violation of federal or state law is prohibited on campus. Alcohol consumption is permitted only in licensed, designated areas and only by individuals of legal age. The university enforces a strict non-smoking policy within 25 feet of any building entrance.

4. Emergency Procedures

All students and employees are expected to familiarize themselves with emergency evacuation routes posted in each building. In the event of a campus emergency, the university will issue alerts through the WestBrook Alert System (SMS, email, and digital signage). Students must comply with all instructions from Campus Safety officers and local law enforcement during emergencies.
