

Major Declaration Requirements

1. When to Declare a Major

Students at Westbrook University must declare a major no later than the end of their fourth semester (second year) of enrollment. Students who have not declared by this deadline will be placed on an Academic Hold that prevents registration for the following semester until a major is declared.

2. Declaration Process

To declare a major, students complete the Major Declaration Form (Form REG-01) and submit it to the Registrar's Office. For selective-admission programs (Business, Nursing, Engineering), students must also meet program-specific admission requirements in addition to submitting the declaration form. See the respective college's program requirements.

3. Changing a Major

Students may change their major at any time by submitting a Change of Major Form to the Registrar. Students are encouraged to consult with advisors in both their current and prospective departments before changing. Changing a major late in the academic career (after 90 credit hours) may require additional time to complete remaining requirements.

4. Double Majors and Minors

Students may declare a double major by completing the requirements for both programs. At least 50% of the coursework for each major must be distinct (non-overlapping). Students wishing to add a minor should consult the Minor Declaration form and minor requirements for their chosen area.
