

Prerequisite Waiver Procedure

1. Purpose

Prerequisites ensure that students have the foundational knowledge required to succeed in advanced courses. In exceptional cases, a student may request a waiver of a course prerequisite if they can demonstrate equivalent knowledge through prior coursework, professional experience, or standardized assessment.

2. Eligibility

A student may request a prerequisite waiver if: (a) they have completed equivalent coursework at another institution; (b) they have professional experience that demonstrates mastery of prerequisite material; or (c) they have passed a departmentally administered placement exam at the required level.

3. Waiver Process

Step 1: The student meets with the instructor of the course for which the prerequisite is being waived. The instructor reviews the student's evidence and provides a written recommendation.

Step 2: The student submits the Prerequisite Waiver Request Form (Form REG-06) to the Department Chair, attaching the instructor's recommendation and all supporting documentation.

Step 3: The Department Chair approves or denies the request within 5 business days. Approved waivers are entered in the student's academic record by the Registrar.

4. Important Notes

- Waiving a prerequisite does not waive the credit-hour requirement for the prerequisite course
- Waivers are specific to one semester and one course section
- Denial of a waiver may be appealed to the Dean of the relevant college within 5 business days
