Revision: 1.0

Transfer Credit Policy

1. Acceptance of Transfer Credits

Westbrook University accepts transfer credits from regionally accredited colleges and universities. Credits from institutions accredited by nationally recognized bodies may also be evaluated on a case-by-case basis. Transfer credits are reviewed by the Registrar's Office and relevant academic departments.

2. Transfer Evaluation Process

Incoming transfer students must submit official transcripts from all previously attended institutions. The Registrar's Office completes a preliminary transfer credit evaluation within 30 days of enrollment. Departmental reviews for major-specific courses are completed within 45 days of the student's first day of classes.

3. Transfer Credit Equivalencies

Courses that align closely with Westbrook course offerings receive direct equivalencies (e.g., transferred Calculus I = MATH 151). Courses without a direct equivalent may be accepted as general elective credit. Courses graded below a C (2.0) at the transfer institution are not accepted for credit but are listed on the transfer transcript.

4. Credit Limits

- Maximum 90 transfer credits accepted toward a 120-credit bachelor's degree
- Minimum 30 credit hours must be completed at Westbrook University (residency requirement)
- No more than 60 credit hours from a community college may count toward the degree
- AP, IB, and CLEP credits are evaluated separately per the departmental credit-by-exam policy
